

FONTAINE REVOLUTION TRIDEM

This versatile 3-axle 53' trailer transforms from a 122" spread to California legal at the touch of a button

■ Transition area between upper and lower deck is reinforced for greater strength and durability

■ Patented RASR™ Routed Aluminum Side Rail withstands impacts 12x better than the previous industry-standard design—brushes off a forklift hit that would send another trailer to the repair shop

■ Patented StirLITE® friction stir welded aluminum floor is a lighter, stronger unitized design—it offers unequaled stability for longer tire life and better fuel economy

■ Air lift controls are easy to operate and protected from debris and weather

■ Lift the center axle for a 122" spread configuration

■ Lift the rear axle for a California legal configuration
